

Linear Steel Bench Seat Pad

“The Linear Steel Series was designed from the idea of presenting durable materials in a sophisticated and understated expression for outdoor use with its form language inspired by the notion of meetings—the meetings of lines, the meetings of shapes and the meetings of materials. The design is defined by its straight lines for a contemporary yet timeless aesthetic through the details of its folded edges, half-circular intersecting legs and small spacing for easy outflow of water. It is through these subtle elements that the Linear Steel Series translates the values of elegance, longevity and functionality into modern outdoor furniture.”

Description	The Linear Steel Seat Pad is a versatile cushion designed to seamlessly complement the Linear Steel Bench. Crafted from UV-resistant textiles, these seat pads maintain their vibrant color even in direct sunlight. The cushions are also water-repellent, ensuring durability. While they can withstand light rain, we recommend bringing them indoors during rainy weather to maximize the product’s lifespan.
Material	Upholstered foam with black, anti-slip backing. Upholstered in UV-protected polyester textile. Rope for attachment.
Cleaning & Care	Seat pads are water-repellent, and the textile is breathable. However, we recommend taking them inside during rainy weather to ensure a long lifetime of the product. Remove non-greasy stains by carefully dabbing with a lint-free cloth wrung out in clean, warm water. If necessary, clean by dabbing with soapy water.
